- All supplies and medications listed are for pediatric size/dosage.
- As our needs for supplies and equipment change regularly, please contact Mr Reachsey to confirm that the equipment or supplies that you are so kindly Considering donating is still needed before sending or bringing them.

PART I Disposable Supplies

Dental Supplies:

Dental needles
GIC capsules
Cotton Role
Led mix
Polishing burs
Drilling burs high speed and low speed (especially round burs for low speed)
Conditioner
Sodium fluoride (NaF)
Sodium hypochlorite (irrigation solution)
Oral Rinses
Surface cleaners & disinfection solution
Septodent anesthetic injections
Tropical anesthetic jelly
Cavi & Caviton
Calcium Hydrocid (CaOH₂)
Hydrogen Pherocite (H₂O₂)

General Medical Supplies:

Anesthesia gas sampling line tubing
Bandages/Dressings
Chest Drainage tubes and bottles
Cotton wool
EKG disposable electrodes,

Endotracheal tubes RAE: 3.0, 3.5, 4.0, 4.5, 5.0, 5.5, 6.0, 6.5
Feeding tubes
Incentive spirometers
Intraosseous needles
IV burettes (Pediatric - 60ml/gtt)
IV catheters
IV extension tubing
IV infusion sets
Oxygen face masks
Oxygen nasal cannula
Plaster bandage
Spinal needles 3^{1/2}
Sponge packs
Steam star indicator
Suction catheters
Tape
Urinary catheters
Urine collector
Oxisensor (N-25; D-20; I-20)
Gauze sponge
Blood infusion set
LMA (size 1.0, 1.5, 2.0, 2.5)
Nerve Stimulator needle: No 26, 27, 28
Nerve Stimulator
Optic Laryngoscope

N₂O Regulator
Air blowing heating system

Laboratory Supplies:

Plastic pipette
Pipette tips
Microscope slides-frosted end
Minicollection tube lithium heparin
Minicollection tube EDTA 250-500ul
Non anticoagulant tubes 12 x 75mm
Double blood bag 350 ml
Satellite blood bags
Pipette Automatic 5-200 ul
Pipette Automatic 200-1000ul
Blood lancet(Vaccinostiles)

Surgical Supplies:

1. Sutures:
 - a. Vicryl 2/0, 3/0, 4/0, 5/0, 6/0, 7/0
 - b. Silk 2/0, 3/0, 4/0, 5/0
 - c. Nylon 2/0, 3/0, 4/0, 6/0
2. Nasal packing (rhino-packed)
3. Surgicel
4. Cautery pencil and patient return electrodes
5. Gauzes 4"x4", 2"x2"
6. Peanuts gauze sponge
7. Negative pressure drains.
8. Rectal tubing (for Enema)
9. Cast padding
10. Dermacarriers / Skin graft carriers
(zimmer)(REF 00-2195-013-00)(3 to 1)
11. Suction connecting tubing
12. Corrugated Drain (Wound drainage)
13. Chronic Catgut 4/0; 5/0

14. Sewing Machine
15. Penrose drains
16. Glass fiber plaster of Paris bandage
17. Flat roll for Autoclave
18. Vaseline gauze
19. Elastic bandage
20. Elastic net
21. X-ray detectable gauze sponge

Eye Surgical supplies:

1. Suture: Vicryl 5/0 (Spatulas), 6/0, 7/0, 8/0
2. Nylon 10/0 (Spatulas)
3. Vicryl Sutures for Strabismus surgery (S 24, S 29 vicryl 6/0).
4. Eye pad, sterile drape, cotton stick.
5. Eye shield, patch sticker for Amplyopia treatment,
6. Fluorescence strips for dye the cornea.
7. BSS (Balance Salt Solution) for eye surgery.
8. Gortex sutures.
9. AC Canular.
10. Crescent blade, Keratome Blade.
11. Transparent Dressing: Tegaderm (Any sizes).
12. Polarized film.
13. Intraocular Len: AC-IOL, PC-IOL. PMMA-Foldable len and Injector.
14. Iris retractor.
15. Lacrymal Silicone tube.
16. Prosthesis.
17. Contact Lens.
18. Miostate, Miochol.
19. Bupivacaine 0.5%, Lidocaine 2%.

PART II Non-disposable Instrument and Equipment

General Medical Equipment:

Oxygen concentrator (220V)
Penlights
Stethoscopes
Cast saw
Ultrasound probe
Pulse Oxymeter (220V)
Syringe pumps
Suction Machine (220V)
Ventilator breathing circuits
(Bear Cub 750)
Ventilator Breathing Circuits (Achieva)

Surgical Instrument:

22. Pediatric Orthopedic Instruments:
 - a. Internal & external bone fixation
(screws, screw drivers, plates,
K.wire, pins....)
 - b. Electric bone drills, Drill bit

- c. Maxillo-facial drill and plate
- d. Bone saw
- e. Bone clamps, Bone rasp, raspatory,
elevators, chisel, mallet, bone
nibbler, bone cutter...
23. ENT instrument
24. Skin hooks.
25. Hemostatic forceps
26. Right angle clamps
27. Mixer forceps
28. Bowel clamps (soft)
29. Allis forceps
30. Jamison Scissors
31. Balfour abdominal retractors
32. Malleable retractors
33. Scissors (plastic and reconstructive)
34. Infant rib spreader-retractors
35. Needle forceps
36. Roux retractors
37. Gosset retractors

38. Vascular scissors
39. Thoracic forceps
40. Senn retractors
41. Seton Shallow surgical retractors
42. Instrument box
43. PDA box (Ductus Dissector) set
44. Langenbeck Retractors
45. Mosquito forceps
46. Adson dissecting forceps
47. Ultrasonic cleaning machine

Surgical Equipment:

48. Lead aprons for X-ray protection
49. Cast saw
50. Fiber Optic Bronchoscope
51. Foot Operated Surgeon's Stool
52. Pediatric Electric Blanket
53. Orthopedic beds
54. Surgical magnifying glasses 3.5X
55. Patient positioning devices

Laboratory Equipment:

Hematology Analyzer
 Haematocrit centrifuge
 Pipettes (automatic)
 WBC Counter cellule (Chamber count)
 Sero centrifuge

PART III Miscellaneous Patient Supplies

Blankets
 Children and adult clothing
 Coloring books
 Crayons, pencils, pens
 Mattress
 Mosquito nets
 Reading glasses

PART IV Medications

Please Note:

The government of Cambodia restricts the import of expired medications. All medication arriving in the country must be a minimum of twelve months from their expiry date.

Intravenous Medication

Amphotericin B
 Ceftazidime
 Ceftriaxone
 Dobutamine
 Imipenem+ Cylastatin
 Lidocaine with epi 1%or 2%
 Methyl prednisolone
 Salbutamol
 Thiopental

Microscope

Ophthalmic Instrument:

Cataract set
 Ophthalmic Knife (Keratome, Crescent, DCR)
 Glaucoma surgical set
 Strabismus set.
 Chalazion set.
 Lacrymal probing set.
 Phaco Machine.

Dental Equipment:

Pediatric forceps for extraction (lower and upper)
 Preinstall elevators
 Root tip elevators
 Mouth mirrors
 Tweezers
 Probes
 Hand pieces (high and low speed)
 Excavators
 Syringe tips
 Ballburnisher
 Flat plastics
 Balls and spatulas
 Dental chair with the unit

Sheets
 Children's Toothbrush
 Toothpaste
 Toys

Oral Medication

Albuterol (Salbutamol nebulizer & inhalation)
 Amoxicilline
 Augmentin
 Cefuroxime
 Cloxacilline
 Halothan
 Isofluran
 Lansoprazol
 Multivitamine

Lidocaine 2% solution
Montelukast
Paracodeine
Penicillin V
Propyl tiouracil tab 50 mg
Servofluran
Valproic acid
Captopril

Topical Medication

Acyclovir cream
Emla Cream
Hibicet (Chlorhexidine+Cetrimide)
Lidocaine jelly
Lidocaine spray
Meconazole 2% Cream
Triple antibiotic ointment
Vaseline

Ophthalmic medication (Eye drop)

Acyclovir eye ointment
Timolol maleate 0.5%
Tobradex Eye drop.
Tropicamise (eye drop, dilate pupil)
Phenylephrine 2.5%.
Cyclopentolate 1%.
Pilocarpine 1% eye drop.
Systain Eye drop.
Miostate, Miochol.

Dental

Septodent anesthetic injection
Topical anesthesia jelly

Dear Friends,

Thank you for your interest in donating supplies to the Angkor Hospital for Children. We could not keep our doors open for all the children without the generous support of people like you. There is a very simple and specific set of procedures that you should follow in moving forward with the donation process. We know that all donations come from caring people who want to help but sometimes we cannot accept a donation for one of many possible reasons. If this is the case in regard to your donations, we would still like you to know how much we appreciate your generosity and effort and hope that suitable donations will become available in the future.

In order to determine if the donation is one we currently need and can accept, please fax or email the AHC Logistics Department a letter with a specific list of what you would like donate. We will let you know as soon as possible if we can accept it and when. We know your efforts are aimed at helping and would not want that energy wasted, so please check with us before beginning the donation process and we will let you know if the donation items are needed or we will help to redirect your energies.

If we can accept your generous donation please follow these procedures:

- The **original invoice and original packing list** should be faxed to us at least one month in advance of the Shipment's arrival in Cambodia. This allows us to prepare the paperwork needed for Cambodian Customs Without costing us any late fees or storage costs. (Please include: name, description, quantity, value and weight of all contents.)
- The **seaway or airway bill** should be faxed immediately upon your receipt from the shipper so that we may continue the above-mentioned processes on schedule.
- Please pay all **shipping costs in advance**.
- All medications must arrive in Cambodia with a minimum of **12 months** until their expiration.
- Please refer the consignment to the below contact:

Angkor Hospital for Children by Friends without A Border
Acha Mean road, Svay Dangkum Commune,
Siem Reap, Kingdom of Cambodia
Tel: 855-063-963-409 Ext: 7018
Fax: 855-063-760-452
Email: logistics@angkorhospital.org
Attn: Mr. Samneang Reachsey Nheak
Logistics Manager
Cell phone: 855-012-829-302

When in doubt please check with AHC Logistics Department before proceeding.

Once again on behalf of the hospital, its staff, and the children and families of Cambodia, I would like to thank you for your interest in making donations. We hope that what you would like to donate can arrive and be utilized by those who truly need it as easily, affordably and quickly as possible. I hope these procedures and regulations are all you need to move forward with your donation. If not, please email us with any further questions. We are here to help you in your desire to be of service to the children of Cambodia.

Yours truly,

Samneang Reachsey Nheak
Logistics Manager
