Angkor Hospital for Children Limited

Directors’ report

The directors have pleasure in submitting their annual report together with the audited financial statements for the period from 4 February 2013 (Date of incorporation) to 31 December 2013.

Principal activities

The principal activities of Angkor Hospital for Children Limited (the “Company”) are the provision of quality paediatric health care to Cambodian children and free care to those living in poverty; to work with the Cambodian Ministry of Health to strengthen Cambodia’s healthcare system through the training of doctors, nurses and health workers; to play a central role in improving public health for all children.

Financial statements

The surplus for the period from 4 February 2013 (Date of incorporation) to 31 December 2013 and the state of the Company’s affairs as at that date are set out in the financial statements on pages 5 to 21.

Transfer to funds

The surplus of USD850,496 for the period has been transferred to unrestricted funds of USD125,144 and restricted funds of USD725,352.

Property, plant and equipment

Movements in property, plant and equipment are set out in note 8 to the financial statements.

Directors

The directors during the financial period and up to the date of this report were:

Akio Matsushima (appointed on 15 October 2013)
Alexander Stuart Davy (appointed on 15 October 2013)
Hartmut Giesecke (appointed on 15 October 2013)
Katja Van’t Ende (appointed on 15 October 2013)
Kenro Izu (appointed on 15 October 2013)
Lindsay William Ernest Cooper (appointed on 15 October 2013)
Lisa Genasci (appointed on 4 February 2013)
Robert Andrew Gazzi (appointed on 4 February 2013)

In accordance with Article 41 of the Company’s Articles of Association, all directors are appointed for a three year term and are eligible for re-election upon retirement.
Angkor Hospital for Children Limited

Directors’ report (continued)

Directors’ interests in shares

At no time during the period was the Company, or any of its holding companies or fellow subsidiaries a party to any arrangement to enable the directors of the Company to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

Directors’ interests in contracts

No contract of significance to which the Company, or its holding companies or fellow subsidiaries was a party, and in which a director of the Company had a material interest, subsisted at the end of the period or at any time during the period.

Auditor

Baker Tilly Hong Kong Limited who were appointed during the period, and who retire and, being eligible, offer themselves for re-appointment. A resolution for the re-appointment of Baker Tilly Hong Kong Limited as auditor of the Company is to be proposed at the forthcoming Annual General Meeting.

By order of the board

[Signature]

Chairman

Hong Kong, 29 April 2014
Independent auditor’s report to the members of
Angkor Hospital for Children Limited
(Incorporated in Hong Kong limited by guarantee)

We have audited the financial statements of Angkor Hospital for Children Limited (the “Company”) set out on pages 3 to 21, which comprise the balance sheet as at 31 December 2013, and the statement of comprehensive income, statement of changes in funds and cash flow statement for the period from 4 February 2013 (Date of incorporation) to 31 December 2013, and a summary of significant accounting policies and other explanatory information.

Directors’ responsibility for the financial statements

The directors are responsible for the preparation of financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. This report is made solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company’s preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
Independent auditor’s report to the members of
Angkor Hospital for Children Limited (continued)
(Incorporated in Hong Kong limited by guarantee)

Opinion

In our opinion, the financial statements give a true and fair view of the state of the Company’s
affairs of as at 31 December 2013 and of its surplus and cash flows for the period from 4 February
2013 (Date of incorporation) to 31 December 2013 in accordance with Hong Kong Financial
Reporting Standards.

**Note:**

1. The Company was incorporated in Hong Kong on 4 February 2013 to operate a charitable hospital in the Kingdom of Cambodia. The hospital was previously operated under another legal entity, Friends Without A Border, registered in the United States of America, from 1999 till 2013. Friends Without A Border agreed to transfer control and responsibility to the Company on 3 October 2012. These financial statements have been prepared on the basis that the hospital assets were transferred on the date of incorporation of the Company.

The notes on pages 9 to 21 form part of these financial statements.

(Expressed in United States dollars)

1 Company information

Angkor Hospital for Children Limited was incorporated on 4 February 2013 and has its registered office at Level 54, Hopewell Centre, 183 Queen’s Road East, Hong Kong. The Company is committed to improve the health and well-being of children and their families in Cambodia.

The mission of the Company is to provide quality paediatric health care to Cambodian children and free care to those living in poverty; to work with the Cambodian Ministry of Health to strengthen Cambodia’s healthcare system through the training of doctors, nurses and health workers; to play a central role in improving public health for all children.

The hospital operated by the Company has had more than 1,100,000 patient visits since opening in 1999. It is officially recognised as a paediatric teaching hospital by the Ministry of Health in the Kingdom of Cambodia. The Medical Education Centre provides continuing medical education to healthcare professionals and nursing students from throughout the country, and has a Memorandum of Understanding with the Ministry of Health to provide such training to every graduate nurse in the country.

The Company is a non-profit making organisation within the meaning of section 88, Chapter 112 of the Inland Revenue Ordinance and, accordingly, is exempted from Hong Kong Profits Tax.

2 Significant accounting policies

(a) Statement of compliance

These financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs"), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong. A summary of the significant accounting policies adopted by the Entity is set out below.

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Company. There have been no significant changes to the accounting policies applied in these financial statements as a result of these developments.

The Company has not applied any new standard or interpretation that is not yet effective for the current accounting period (see note 17).

(b) Basis of preparation of the financial statements

The measurement basis used in the preparation of the financial statements is the historical cost basis.
Angkor Hospital for Children Limited
Notes to the financial statements (continued)
(Expressed in United States dollars)

2 Significant accounting policies (continued)

(b) Basis of preparation of the financial statements (continued)

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

(c) Fixed assets

Fixed assets are stated at cost less accumulated depreciation and impairment losses (see note 2(d)(ii)).

Depreciation is calculated to write off the cost of items of fixed assets, less their estimated residual value, if any, using the straight line method over their estimated useful lives as follows:

- Land and buildings 50 years
- Leasehold improvements 50 years
- Medical equipment 7 years
- Office equipment 7 years
- Motor vehicles 7 years

Both the useful life of an asset and its residual value, if any, are reviewed annually.

The carrying amounts of fixed assets are reviewed for indications of impairment at each balance sheet date. An impairment loss is recognised to the extent that the carrying amount of an asset, or the cash-generating unit to which it belongs, is more than its recoverable amount. The recoverable amount of an asset, or of the cash generating unit to which it belongs, is the greater of its fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of time value of money and the risks specific to the assets. An impairment loss is reversed if there has been a favourable change in estimates used to determine the recoverable amount.

Gains or losses arising from the retirement or disposal of an item of fixed assets are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognised in the income and expenditure account on the date of retirement or disposal.
Angkor Hospital for Children Limited
Notes to the financial statements (continued)
(Expressed in United States dollars)

2 Significant accounting policies (continued)

(d) Impairment of assets

(i) Impairment of receivables

Receivables that are stated at cost or amortised cost are reviewed at each balance sheet date to determine whether there is objective evidence of impairment. Objective evidence of impairment includes observable data that comes to the attention of the Company about one or more of the following loss events:

- significant financial difficulty of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- it becoming probable that the debtor will enter bankruptcy or other financial reorganisation; and
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor.

If any such evidence exists, the impairment loss is measured as the difference between the asset’s carrying amount and the present value of estimated future cash flows, discounted at the financial asset’s original effective interest rate (i.e. the effective interest rate computed at initial recognition of these assets), where the effect of discounting is material. This assessment is made collectively where these financial assets share similar risk characteristics, such as similar past due status, and have not been individually assessed as impaired. Future cash flows for financial assets which are assessed for impairment collectively are based on historical loss experience for assets with credit risk characteristics similar to the collective group.

If in a subsequent period the amount of an impairment loss decreases and the decrease can be linked objectively to an event occurring after the impairment loss was recognised, the impairment loss is reversed through income or expense. A reversal of an impairment loss shall not result in the asset’s carrying amount exceeding that which would have been determined had no impairment loss been recognised in prior years.

Impairment losses are written off against the corresponding assets directly.

(ii) Impairment of fixed assets

Internal and external sources of information are reviewed at each balance sheet date to identify indications that the assets may be impaired or, an impairment loss previously recognised no longer exists or may have decreased. If any such indication exists, the asset’s recoverable amount is estimated.
2 Significant accounting policies (continued)

(d) Impairment of assets (continued)

(ii) Impairment of fixed assets (continued)

- Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

- Recognition of impairment losses

An impairment loss is recognised in income or expense if the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount.

- Reversals of impairment losses

An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount.

A reversal of an impairment loss is limited to the asset’s carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to income or expense in the year in which the reversals are recognised.

(e) Leased assets

An arrangement, comprising a transaction or a series of transactions, is or contains a lease if the Company determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

Where the Company has the use of assets held under operating leases, payments made under the leases are charged to the income or expense in equal instalments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives received are recognised in income or expense as an integral part of the aggregate net lease payments made. Contingent rentals are charged to income or expense in the accounting period in which they are incurred.
2 Significant accounting policies (continued)

(f) Inventories

Inventories are stated at the lower of cost and net realisable value.

Cost is calculated using the first-in, first-out basis and comprises all costs of purchase and related freight charges.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

When inventories are consumed, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The Company receives donated medicines and medical supplies, but has not recorded these in the financial statements because the value of this inventory cannot be reliably estimated.

(g) Receivables

Receivables are initially recognised at fair value and thereafter stated at amortised cost less allowance for impairment of doubtful debts (see note 2(d)(i)).

(h) Payables

Payables are initially recognised at fair value and thereafter stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

(i) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investment that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition.

(j) Employee benefits

Salaries, annual bonuses and paid annual leave are accrued in the period in which the associated services are rendered by employees.
Angkor Hospital for Children Limited
Notes to the financial statements (continued)
(Expressed in United States dollars)

2 Significant accounting policies (continued)

(k) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Company has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made.

(I) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Provided it is probable that the economic benefits will flow to the Company and the revenue and costs, if applicable, can be measured reliably, revenue is recognised in the statement of income and expenditure as follows:

(i) Contributions received from third parties and government subventions

Contributions received from third parties and government subventions are recognised when there is a reasonable assurance that the Company will comply with all attached conditions and that contributions from third parties and government subventions will be received.

In the statement of comprehensive income, where the revenue item is attributable to restricted funds for specific purposes, the revenue is allocated to the restricted funds category.

(ii) Donations in kind

Donations in kind are recognised when the goods or equipment are received and where the value can be reliably estimated.

(iii) Sales of goods

Sale of goods is recognised on the transfer of risks and rewards of ownership, which generally coincides with the time when the goods are delivered to customers and title has passed.

(iv) Provision of services

Revenue from provision of services is recognised when the services are rendered.

(v) Interest income

Interest income is recognised as it accrues.
3 Donations in kind

The Company receives donations in kind of fixed assets, medical supplies and medicines from donors.

Fixed asset donations are usually the result of specific requests made to donors for equipment needed for a defined immediate use in the hospital and for which the value is known. Donated fixed assets are valued at an amount which would be expected to be paid on the open market for equipment of a similar specification and age. The carrying value of donated fixed assets at 31 December 2013 was USD419,980.

Donations of medical supplies and medicines are less specific, and often represent goods that the hospital could not have purchased itself on the open market, and are therefore difficult to value. The value of donated supplies are based on the cost to the donor, or in the absence of this information, the cost at which the Company would expect to pay on the open market. Donations of medicines and medical supplies are not recorded in the financial statements at 31 December 2013 as the amounts cannot be reliably estimated.

Notes to the financial statements (continued)  
(Expressed in United States dollars)  

10 Accounts receivables (continued)  

Ageing analysis  

The ageing profile of contributions receivable at the balance sheet date is as follows:  

2013  
USD  

Within one month  
174,638  

Contributions receivable are recognised on the date of signing the contribution agreements. Further details on the Company’s credit policy are set out in note 15(a).  

11 Accounts payable and accruals  

2013  
USD  

Accounts payable  
192,276  
Accrued expenses  
69,754  

262,030  

All of the accounts payable are expected to be settled or recognised as income within one year.  

12 Deferred grant income  

Deferred grant income represents contributions received from third parties for the Company’s future expenditure. The deployment of such contributions is restricted to specific uses and will be recognised as income in the period to which the related restricted expenditure occurs.  

The deferred income is expected to be recognised as income within one year.  

13 Operating lease commitments  

At 31 December 2013, the total future minimum lease payments under non-cancellable operating leases are payable as follows:  

2013  
USD  

Within one year  
3,900  

The Company is the lessee in respect of a number of properties held under operating leases. The leases typically run for an initial period of 1 to 2 years, at the end of which period all terms are renegotiated. No lease includes contingent rentals.
14 Funds management

The Company’s objectives when managing funds are to safeguard the Company’s ability to continue as a going concern in order to provide nurturing paediatric care, medical education and public health promotion among the children and their families in Southeast Asia.

15 Financial risk management and fair values

Exposures to credit, liquidity, interest rate and currency risks arise in the normal course of the Company’s operations. The Company’s exposure to these risks and the financial risk management policies and practices used by the Company to manage these risks are described below.

(a) Credit risk

The Company’s credit risk is primarily attributable to the accounts receivables and cash and cash equivalents. Management has a credit policy in place and the exposures to such credit risks are monitored on an ongoing basis.

Cash and cash equivalents are placed at financial institutions with sound credit ratings.

The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the balance sheet. Further quantitative disclosures in respect of the Company’s exposure to credit risk arising from trade and other receivables are set out in notes 9.

(b) Liquidity risk

The Company’s policy is to regularly monitor current and expected liquidity and funding requirements to ensure that it maintains sufficient cash to meet its liquidity and funding requirements in the short and longer term.

All of the Company’s accounts payables and accruals are expected to be settled within one year. All financial liabilities of the Company are carried at amounts not materially different from their contractual undiscounted cash flows as at 31 December 2013.

(c) Interest rate risk

The Company’s interest-bearing financial instruments comprise mainly the cash at bank which is subject to cash flow interest rate risk. It is estimated that a change in the interest rates would not significantly affect the Company’s income or expense.

(d) Currency risk

The Company has no significant currency risk as most of the transactions which give rise to receivables and payables, and cash and cash equivalents are denominated in the Company’s functional currency.

15  Financial risk management and fair values (continued)

(e)  Fair values

All financial instruments are carried at amounts not materially different from their fair values as at 31 December 2013.

16  Subsequent event

Friends Without A Border agreed to transfer control and responsibility of the hospital to the Company on 3 October 2012. The transfer agreement is being processed by lawyers and is subject to the approval of The Attorney General in New York. The value of assets per the transfer agreement will be stated at the date of signature. Therefore the value stated in the transfer agreement may be different from that presented in these financial statements due to the depreciation of fixed assets during the period from 4 February 2013 to 29 April 2014 (or such later date on which it is agreed). The Company expects that the transfer agreement will be completed in the year to 31 December 2014.

17  Possible impact of amendments, new standards and interpretations issued but not yet effective for the period from 4 February 2013 (Date of Incorporation) to 31 December 2013

Up to the date of issue of these financial statements, the HKICPA has issued a number of amendments, new standards and interpretations which are not yet effective for the period from 4 February 2013 (Date of incorporation) to 31 December 2013 and which have not been adopted in these financial statements.

The Company is assessing the impact of these amendments, new standards and new interpretations in the period of initial application. So far it has concluded that their adoption is unlikely to have a significant impact on the Company’s results of operations and financial position.
